

The charge of the **Temple Shalom Redevelopment Committee** is to attend and actively participate in Planning Board meetings relative to the potential redevelopment/rezoning of the Temple Shalom property. The Committee will provide advice to the Planning Board with respect to: (1) the identification of development options for the lot of land owned by Temple Shalom; (2) determination of the financial and other consequences of the various development options; and (3) determination of which development options would be reasonably acceptable to the Temple Shalom neighborhood. It is the responsibility of all members to communicate to the Planning Board ideas and responses to ideas and proposals brought forward for the property.

Current language approved & voted by the Milton Planning Board June 4, 2009
