

An illustration showing a tall, rectangular electric space heater on a base. To its left is a small table with a decorative metal railing, holding a potted plant and several books. The scene is set indoors near a window with curtains.

General Rules for Space Heating with Electricity

1. Keep your heating equipment and anything that can burn at least 3 feet apart.
2. Plug power cords only into outlets with sufficient capacity and never into an extension cord.
2. Turn off heaters when you leave a room or go to bed.
4. Inspect for cracked or broken plugs or loose connections, and replace any before using.
5. Never use or store flammable or combustible liquids near or in rooms with heaters.
