

## **SOLID WASTE ADVISORY COMMITTEE**

The Solid Waste Advisory Committee was established on September 14, 2011 (and reconvened in October 2013) by unanimous vote of the Board of Selectmen, to be comprised of a representative of the Board of Selectmen, the Warrant Committee, the Board of Health, Sustainable Milton, a resident of the Town, a member of the business community, the Town Administrator and ex-officio members Public Works Director Joseph Lynch and Assistant Town Engineer John Thompson. The Committee was charged with making a recommendation to the Board regarding the Town's future solid waste policy by researching/discussing the following directives:

- to review the level of service and performance of the current solid waste vendor
- to review the industry trends and standards
- to consider the advantage of a regional approach
- to consider the advantage of an extension of the existing solid waste contract
- to consider the advantage of a new RFP
