RE: Milton Marketplace  
10 Bassett Street, Milton, MA 02186

Dear Ms. Hall and Board Members:

I am the electrician that provides electrical services to Milton Marketplace, and have done so for over thirty (30) years. I am very familiar with the parking lights and the layout of the Marketplace lot. I have received the Site Lighting Photometric Calculation Plan dated August 7, 2018 and have reviewed the same. I hereby certify that the parking lot lights at 10 Bassett Street, Milton, MA 02186 remain the same as it was on August 7, 2018. I would further state that the lights on the rear parking lot can be set to a separate timer in order to turn off the rear lot lights at an earlier time, if needed, than the lights in the front parking lot, which they can. I know this based upon the electrical work I have done on this property on an ongoing basis. If there are any questions, please contact me.

Very truly yours,

  
Charles E. Jerrier
