

“The Norfolk County Mosquito Control District will be conducting truck-based ultra-low volume (ULV) aerosol applications in Milton on Thursday evenings each week, from after Memorial Day through mid-September, except on official holidays. These applications are conducted based on resident requests to the district and based on our arbovirus surveillance for WNV and EEE and are not town-wide each week. These applications take place after sunset until midnight. Applications are not conducted when it is raining or when it is too cold at night. Please see the NCMCD website for more information, to make an online request, or request exclusion from these applications visit:
